Print Prices (In-Store Prints)

These prints are done in the store; usually either the same day or within a day or two.

Photo Kiosk Prices: (\$2 per order minimum print fee)

4x6": \$ 0.49

In-Store Premium Prints:	Pro Luster	Alternate Papers
5x7" Handmade Giclée Print	\$ 9.95	11.25
8x10" Handmade Giclée Print	\$ 13.95	15.95
11x14" Handmade Giclée Print	\$ 26.95	29.95
13x19" Handmade Giclée Print	\$ 29.95	34.95
16x20" Handmade Giclée Print	\$ 39.95	47.50

Our **Premium Giclée prints** are handmade prints on professional **Hahnemühle Pro Luster** photo paper that use 10-12 different ink colours and that use permanent (non-fading) museum-quality pigments, not dyes. **Included in the price:** we inspect your individual photos and adjust and intelligently crop or upscale where needed. Large prints are delivered in crystal clear bags with cardboard backing.

Alternate Paper Types: (may not always be available)

Hahnemühle Photo Rag 188 gsm: The valued all-rounder for high-quality FineArt inkjet printing. The white cotton artist's paper, with its characteristic, wonderfully soft feel, boasts a lightly defined felt structure, lending each artwork a three-dimensional appearance and impressive pictorial depth. Combined with the matte premium inkjet coating, this paper produces outstanding prints that feature brilliant colours, deep blacks, striking contrasts and perfect reproduction of detail. This acid- and lignin-free classic meets the most exacting requirements for age resistance and is specially designed for FineArt applications. Whether it is used for FineArt photography or art reproductions, the ideal combination of structure, print quality and weight makes Photo Rag® one of the most versatile FineArt inkjet papers.

Hahnemühle Baryta Light Satin 300 gsm: FineArt Baryta Satin is a barite paper with a white and satin-gloss surface. The amount of barium sulphate in the coating in conjunction with a micro porous ink receiver layer provides exceptional image results with large colour space and intensive colouring. FineArt Baryta Satin enables extremely deep blacks (Dmax), excellent image sharpness and is perfect for black-and-white photography.

High colour density and brilliance ensure an outstanding sharpness of details to achieve high-resolution and vivid images for photography and reproductions. The 100% α -Cellulose paper is acid free and meets the requirements for longevity according to ISO 9706.

Hahnemühle Agave 290 gsm: A FineArt inkjet paper that is produced using agave fibres. 70% of this unique, environmentally friendly FineArt inkjet paper is made from sisal fibres. The base material stands out with its bright white natural tone and does not contain optical brighteners. The rough, yet delicately defined surface texture gives the subject a captivating sense of depth and impresses with a pleasant, soft feel. The matt premium inkjet coating guarantees outstanding print results with excellent reproduction of colour and detail, deep black and optimum contrasts. Hahnemühle Agave is acid- and lignin-free and meets the most exacting requirements in terms of age resistance. The combination of unique raw fibre materials, bright white natural tone, balanced surface texture and the customary high print quality makes it an exclusive, versatile FineArt inkjet paper.
